2:00 PM EST

WANT TO LEARN MORE  
ABOUT REHABING  
EXISTING CONCRETE  
LINES WITH HDPE?

**THIS ADVANCED, HDPE-  
ORIENTED, FREE  
WEBINAR IS FOR YOU!**

- Access to national HDPE experts
- Content from our highly successful roadshow events in a webinar format
- CEU/PDH available (dependent on your state's requirements)
- Session lasts 75 minutes

ONLINE VIA ZOOM

**Register Here**

## WEBINAR SUMMARY

In a first for the PE Alliance team, reinforced concrete cylinder pipe will be examined. We will discuss why it was used in pressure pipe, how and why it fails in pressure and gravity situations and how HDPE pipe solves for those failures. Specific examples will be shared of when HDPE was used to rehab existing concrete lines. We will also look at manholes and ways to connect to concrete and HDPE structures. CEU/PDH offered, just stay until the end and respond to the question. Sign Up Now!

Moderator: Peter Dyke, Executive Director, Alliance for PE Pipe

**Speakers:** Alan Ambler, PE AM Trenchless, Douglas Keller LyondellBasell, Mike Leathers Pipeline Plastics, Mark Christensen SECOR

**Advanced Registration Required.**
