

HDPE Fusion Training

March 3rd-6th, 2025

The PE Alliance has teamed up with McElroy & Milford to bring fusion training twice in 2025. We will be in Broken Arrow, OK in March & September. If you or a member of your team needs training in electrofusion, butt fusion, data logging and joint integrity will all be covered during the 4 days of training. Small diameter manual butt fusion, medium diameter hydraulic butt fusion with DataLogger® (includes TracStar® iSeries), small and medium diameter electrofusion, pressure testing, and joint integrity will all be available will all be covered. [Register Here](#)

Details

Intended for municipal staff, contractors, and consulting engineering firms, this training week is offered by the PE Alliance at a discounted rate thanks to sponsorships from our friends at McElroy and Milford. A limited number of scholarships are also available for those in need. For more info, contact Peter Dyke @ pdyke@pepipe.org.
