

# HDPE Fusion Training

## March 10th – 13th 2025

The PE Alliance has teamed up with Milford to bring fusion training to this part of the Lone Star state. In order to build a steady stream of fusion techs in central Texas, Electrofusion, butt fusion, testing and inspection will all be covered during the 4 days of training. Electrofusion up to medium diameter, butt fusion up to the i series, testing and inspection will all be covered. These sessions are offered a la carte.

## Details

Intended for municipal staff, contractors, and consulting engineering firms, this training week is offered by the PE Alliance at a discounted rate thanks to sponsorships from our friends at McElroy, Milford and Integrity Fusion. These sessions are offered a la carte. A limited number of scholarships are also available for those in need. For more info, contact Peter Dyke @ [pdyke@pepipe.org](mailto:pdyke@pepipe.org)

**Morning Refreshments & Lunch served each day**
