## WEBINAR SUMMARY

The circumstances that drive owners to use HDPE at and above grade while unique are not rare. HDPE pipe is regularly used to solve water and wastewater delivery challenges in temporary and permanent above ground applications. While the pipe behavior varies somewhat, its leak free performance does not. Participants will learn how HDPE behaves unrestrained and exposed to the elements and they will also learn how to design with HDPE in those applications. CEU/PDH offered, just stay until the end and respond to the question. #fuseitorloseit

**Moderator:** Peter Dyke, Executive Director, Alliance for PE Pipe

**Speakers:** Mike Whitehouse Isco Industries, Erik Elizondo Milford

**Advanced Registration Required.**
