WEBINAR SUMMARY

The HDPE 101 session is being resurrected and updated for a new age of engineer and municipal owner. This talk should be heard by all pipeline designers who have influence over pipe type decisions and it addresses: Behaviors and CharacteristicsHDPE saving the day.... Earthquake performance... Fusion basics....Resources.... 9 Major Markets w/ examples....Vocabulary..... Accountability... And more! Participants will develop a firmer understanding of basic concepts and why HDPE pipe is so different from legacy materials. This session is perfect for the new engineer and the municipality that only knows HDPE as a service line pipe. Sign up now. CEU/PDH offered, just stay until the end and respond to the question.

Moderator: Peter Dyke, Executive Director, Alliance for PE Pipe

Speakers: Peter Dyke Alliance for PE Pipe, Ian Dethloff Alliance for PE Pipe with special guest Richard Kolasa WL Plastics

Advanced Registration Required.
