WEBINAR SUMMARY

Register now for this unique offering from the PE Alliance. The core Alliance group of experts will gather to talk about common and niche HDPE design and installation issues and then pull up videos and images of the issue for discussion. As regular viewers of the webinar program know, we also offer a parallel "Expert Bench" where any question can be asked. This Q&A will be encouraged during this 75-minute webinar. So find that question that has been gnawing at your team and challenge us! CEU/PDH offered, just stay until the end and respond to the question.

Speakers: Alan Ambler PE, Peter Dyke, and Dan Landy, Alliance for PE Pipe

Advanced Registration Required.
