WEBINAR SUMMARY

In the 9 major pipe markets, the pipe types that are used in each of those markets will be discussed. The share of each will be generally presented and the attributes of each pipe type will be discussed. Pipes covered will be cast iron, ductile iron, HDPE, PVC, FPVC, concrete, reinforced concrete, Hobas, fiberglass, clay and steel. Attendees will gain a comparative understanding of the key pipe types used in municipal water and wastewater systems, including pros and cons, to better compete in the market. CEU/PDH offered, just stay until the end and respond to the question.

- **Moderator:** Peter Dyke, Executive Director, Alliance for PE Pipe
- **Speakers:** Mike Leathers Pipeline Plastics, Stephen Boros Pipeline Plastics, Dusty Langston WL Plastics, Alan Ambler PE; Alliance for PE Pipe

Advanced Registration Required.
