WANT TO LEARN MORE  
ABOUT THE HDPE  
SOLUTION TO PIPELINE  
CONSTRUCTION?

**THIS ADVANCED, HDPE-  
ORIENTED, FREE  
WEBINAR IS FOR YOU!**

- Access to national HDPE experts
- Content from our highly successful roadshow events in a webinar format
- CEU/PDH available (dependent on your state's requirements)
- Session lasts 75 minutes

ONLINE VIA ZOOM

**Register Here**

## WEBINAR SUMMARY

Pipeline construction in the water main and wastewater pipe world has been disrupted by the technology introduced by the HDPE pipe industry. Pipe joined using fusion, narrow lay down areas, shortened construction cycles, long pipe strings, pressure testing above ground and trenchless methods all combine to 'change up' a stable design and construction world. This session focuses on those disrupted construction sequences and identifies the features and benefits of an HDPE solution that is pushing the boundaries of time tested norms. CEU/PDH offered, just stay until the end and respond to the question.

**Moderator:** Peter Dyke, Executive Director, Alliance for PE Pipe

**Guest Speakers:** Sebastien Laplante, ISCO
