OF THE YEAR: HDPE  
PIPE – COLD WEATHER  
OPS

**THIS ADVANCED, HDPE-  
ORIENTED, FREE  
WEBINAR IS FOR YOU!**

- Access to national HDPE experts
- Content from our highly successful roadshow events in a webinar format
- CEU/PDH available (dependent on your state's requirements)
- Session lasts 75 minutes

**ONLINE VIA ZOOM  
REGISTER HERE**

## WEBINAR SUMMARY

Join us for an essential webinar focused on best practices for HDPE fusion and pipelining operations in all weather conditions, including harsh environments and extreme locations. Because HDPE projects run year-round, regardless of the weather, this timely session will help you understand proper procedures and techniques for working safely and efficiently in inclement conditions. Experts from McElroy Manufacturing, SECOR and Integrity Fusion will share insights alongside seasoned field professionals. Topics will include: Butt fusion, Electrofusion, DataLogger usage, Pipe stringing, Laydown areas, Tents, heaters, cold-weather gear, Crew sizes, Capital equipment considerations and Cases. This session builds on our popular 2023 Cold Weather Ops webinar and is not to be missed!

**Moderator:** Peter Dyke, Executive Director, Alliance for PE Pipe

**Proposed Speakers:** Shannon Land McElroy Manufacturing, Chris Weight SECOR, Rick Ponder Integrity Fusion

**Advanced Registration Required.**
