WEBINAR SUMMARY

The most popular series over the last three years in the Alliance's webinar program has been the large diameter offering. Instead of discussing the features, benefits and capabilities of HDPE large diameter pipe and projects, this session goes deeper by discussing the specialized resin, pipe, fittings, accessories and equipment like never before. Experts from across North America will come together and share their knowledge and experience with large diameter product manufacture and project design. If you and your team operate in the large diameter pipe space, this HDPE oriented webinar is for you. CEU/PDH offered, just stay until the end and respond to the question. #fuseitorloseit

Moderator: Peter Dyke, Executive Director, Alliance for PE Pipe

Speakers: Chris Weight **SECOR**, Dave Mosier **Core & Main** and special experts Stephen Boros **Pipeline Plastics** and Matthew Danysh, **AGRU**

- *Access to national HDPE experts*
- *Content from our highly successful roadshow events in a webinar format*
- *CEU/PDH available (dependent on your state's requirements)*
- *Session lasts 75 minutes*

Advanced Registration Required.
